

DISCOVER THE BLACK SEA WITH US

Download Black Sea SaveBook

Project funded by the European Union

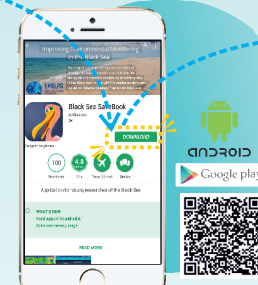

Empowered lives. Resilient nations.

Great! I am at the Black Sea coast

What can I do for the Sea?

Download the mobile application Black Sea SaveBook at Google Play

Start own survey by pressing "start" and later "pencil"

Look for and take photos of found at the beach algae and mollusks – indicators of the good environmental status of the Sea

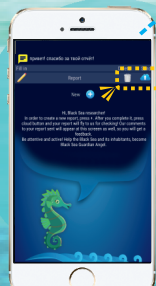

Look for and take photos of alive and dead dolphins

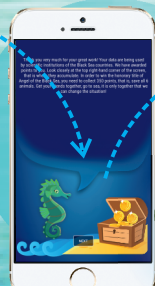

Collect beach litter and take photo of the bags, also take photo of the interesting discovery

Turn on GPS on the phone and put coordinates

Press "cloud" to send the collected data

Get points for the work done and save virtual animals

Help to create the Map of the health of the Black Sea

Become Black Sea Guardian Angel and get the prize

fans of the black sea

All questions and comments to the game are welcomed. Please put them in the post in the Facebook group "Fans of the Black Sea"
